3. Barriers to future attainment (for pupils eligible for PP, including high ability)	
<b>Academic barriers</b> ( <i>issues to be addressed in school, such as poor oral language skills</i> )	
<b>A.</b>	Pupils who are entitled to pupil premium face challenges such as poorer speech and language skills
<b>B.</b>	Fewer PP children achieve greater depth

<b>C.</b>	Special Educational Needs and Disabilities (SEND) Pupil Premium Children – clear differentiation for all pupils to reach their full potential	
<b>C.</b>	Reading & Reading comprehension	
<b>Additional barriers</b> ( <i>including issues to be addressed outside of school, such as low attendance rates</i> )		
<b>D.</b>	Attendance issues – pupils do not attend or are late for school	
<b>E.</b>	Lower self-esteem and self-confidence affecting learning behaviour	
<b>F.</b>	Low parental aspirations/engagement/involvement in learning and school life	
<b>4. Intended outcomes</b> ( <i>specific outcomes and how they will be measured</i> )		
	<i>Measure</i>	<i>Success criteria</i>
<b>A.</b>	Attainment and progress in reading, writing and maths combined for pupil premium children to be in line with their peers due to acceleration in progress.	Identification of pupils gaps in achievement, with clear strategies and support to close gaps and improve understanding. End of year KS2 SATs results for reading, writing and maths for PP children to be at least in line with those of their peers
<b>B.</b>	To increase percentage of PP children working at greater depth	In school data and test outcomes demonstrates an increased percentage of children working at greater depth in Maths and English. Increasing whole staff awareness and responsibility for the attainment and progress of Pupil Premium children. There is a less than 9% gap between disadvantaged and other learners combined R/W/M
<b>C.</b>	Promote pedagogical approaches that support the learning needs for Pupil Premium pupils (who are also SEND) so that teachers and TAs feel confident in supporting the learning across the curriculum	A higher proportion of Pupil Premium pupils who are also SEND will make expected progress. Evidence of success will be seen in academic attainment and progress. Improvements in classroom pedagogy will be seen in learning walks, book scrutinies, and learning walks. Further assessment and identification of needs to be supported by outside agencies – target setting and training of staff to develop practice.
<b>D.</b>	PP children's reading improves in line with non-PP children	PP children make better progress in reading so that their writing is influenced by this PP children achieve in line with non-PP children.

		Children enjoy reading and can talk enthusiastically about a book they are enjoying
<b>E.</b>	Children's emotional well-being is supported to ensure a positive and confident attitude to learning	In all years, across the curriculum, teacher assessments show that PP children are making progress at least in line with their peers
<b>F.</b>	Attendance to be in line with peers and National PP attendance expectations	Attendance of PP children to be at least 96+% Overall attendance among pupils eligible for Pupil Premium improves in line with whole school target figures and non-Pupil Premium pupils
<b>G.</b>	Children to be completing homework and reading at home or in school homework club	Homework and reading record are completed to at least the same percentage as their peers. More PP children attend homework club. Parental workshops support parents with homework

Reduction in disadvantaged children behaviour incidents	Mentors allocated to students who require support/guidance for their behaviour or academic achievement. Selected students receive alternative provision by outside providers to support SIMS behaviour report logged and shared with Principal, Welfare Officer & AP inclusion Highlighted pupils to be monitored Targeted Nurture/friendship groups to be delivered Lunchtime sports club ran by staff for more vulnerable pupils to provide focus during free time	The pupils who attended the lunch time sports club had fewer behaviour incidents in the Summer term compared to the Spring term.  Reports created by outside specialists provided additional advice and strategies to support teachers and parents. When applied they mostly had a positive effect on behaviour.  All students to achieve and develop their learning and life skills. To develop a positive attitude and growth mind-set. The EEF Toolkit suggests that targeted interventions matched to specific students with particular needs or behavioural issues can be effective, especially for older pupils.	Ensure identification of pupils is fair, transparent and properly recorded. Use pastoral support to engage with parents before intervention begins. Monitor behaviour but also monitor whether improvements in behaviour translate into improved attainment. Achievement points to be a focus through teachers, leading to raised achievement points. To ensure equal access to a clean, uniform that is in good condition and access to visits and trips – in line with academy policy and home/school agreement	To provide uniform and support with the costs of visits and trips to those that need it. This goes some way towards masking some of the inequalities that exist and can enhance self-esteem. This has a direct positive impact on the individual's capacity to access learning and to achieve.	Last year 10 disadvantaged pupils were provided with school uniform (including PE kit) due to the PP fund allocation. Due to this, equalities were addressed; each pupil was able to wear the OHA uniform with pride, in line with our policy and to meet the requirements set out in our home school agreement. The same requirements were given to the various visits, trips and residential. This will continue in 2019/20. PP families participated in a fully funded trip to the beach 2019, this was a huge success and will continue 2020	Liaise with class teachers, Welfare Office, SENCO and admin staff. Senior staff will continue to monitor this.</p> <p>Just aiming for pupils to reach 'age-related expectations' is not aspirational enough, particularly for some of the more-able pupils, hence the need to take a wider perspective on pupils' achievement.</p>

Next academic year, children who, on entry are working below age related expectations in reading or communication, language and literacy will be screened by the speech and language therapist where necessary.

Teaching strategies need to be more explicit to support the movement of pupils who are below ARE to enable them to move to ARE or above.

Whilst teaching across the school is at least good, this needs to be continually monitored and good quality CPD planned for to support improved outcomes for learners

**ii. Targeted support**

Desired outcome	Chosen action/approach	Impact:	Lessons learned	Cost
To target pupils who have speech and language issues and accelerate their progress.	A privately sourced speech and language therapist will assess, create targets, deliver interventions and train staff to deliver interventions to pupils with specific speech, language and communication problems to enable them to communicate to the best of their ability	The private speech and language therapist successfully supported the school in highlighting the needs of the pupils most in need of support. Children's needs have been identified and as a consequence received targeted support. The SALT delivered training to teaching staff based on sound principles of vocabulary acquisition (followed up by the English Lead) and individual support that was bespoke to the needs of the child. Delivering quality CPD from professionals enables the school to develop a whole school approach.	Employing a privately sourced SALT has enabled the school to reach more children than the local NHS sector were able to. It has provided a consistency of approach between the school and therapist.  Language acquisition was a key drive this year and will continue again next year with explicit strategies being taught across the school. Embedding this whole school strategy will have the potential to impact positively on all pupils  Next academic year, children who, on entry are working below age related expectations in reading or communication, language and literacy will be screened by the speech and language therapist where necessary.	

**iii. Other approaches**

Desired outcome	Chosen action/approach	Impact:	Lessons learned	Cost
To accelerate academic progress by giving all pupils the opportunity to complete their homework/revision	Homework club ran by teaching staff Easter school for year 6 pupils	Pupils who were persistently not completing their homework were enabled to complete it with support from an adult where needed. As a consequence, children were engaging in overlearning of key concepts	Offering the opportunity for children to access homework club encourage children to actively engage in learning.  Children are able to access support from staff and therefore make progress.	

<p>in an appropriately, supportive environment.</p>		<p>Teachers who supported pupils through the homework club were able to identify areas of strength and those that needed additional support. They offered immediate support and share outcomes with individual class teachers.</p> <p>Parents expressed that the pressures around encouraging their child to engage with homework had become stressful at home. Having the opportunity for parents to reach out to school and engage with the homework club supported a positive homelife experience</p> <p>Due to the pandemic Easter school was not offered to children this year. Year 6, vulnerable children and care worker children were offered the opportunity to attend school</p>	<p>Parents require further support when supporting home learning at home. This needs to be developed further in school, particularly when pupils are accessing learning remotely. Home learning will be delivered remotely next academic year following the working at home model adapted during school closures. Staff will be expected to scrutinise children accessing the platform and those not. These children will be followed up and appropriate support given to individual children and families where appropriate.</p> <p>Additional catch-up intervention groups will be designed and delivered across the school to identify gaps in learning and support pupil progress following the pandemic and school closures</p>	
<p>To remove barriers to learning for identified disadvantaged pupils – emotional/ or behaviour issues</p>	<p>To provide therapeutic support to individuals children (mentoring, sensory room, Lego/art therapy, nurture and social skills groups) Advice and provision provided by privately sourced Behaviour Therapist, SALT and Play Therapist</p>	<p>Children respond well to strategies implemented by staff, behaviour and engagement in lessons improved for most pupils and impacted positively on learning</p> <p>Many individual children benefitted from the specialist support on offer. Parents were appropriately signposted to additional professional services where appropriate.</p> <p>Children have received emotional support</p>	<p>Privately sourcing outside professional has proved positive in identifying the needs of pupils, these services will continue to be sourced to enable pupils to access the support they need.</p> <p>Staff have received support to implement suggestions and strategies - this need embedding further. Staff have improved their knowledge of particular barriers and their understanding of how to support pupils has developed.</p> <p>Following the pandemic, children will require additional emotional support to re-engage them with school following the school closures. As a consequence, a Recovery Curriculum will be created, staff will receive training (including trauma-based training) and sessions delivered to children in order to support their return to school. These sessions will identify children who require additional support to address their individual needs, including referrals to professionals e.g. CAMHS, Mental Health Team, Behaviour Specialist etc</p>	<p><b>Cost</b> <b>£147,151.11</b></p>
