3. Barriers to future attainment (for pupils eligible for PP, including high ability)

Academic barriers (<i>issues to be addressed in school, such as poor oral language skills</i>)		
A.	Pupils have missed a significant period of schooling due to the impact of the Covid-19 Pandemic, there have been disparities in engagement, as a consequence a number of pupils have fallen behind during lockdown	
B.	Pupils who are entitled to pupil premium face challenges such as poorer speech and language skills	
C.	Fewer PP children achieve greater depth	
D.	Special Educational Needs and Disabilities (SEND) Pupil Premium Children – clear differentiation for all pupils to reach their full potential	
C.	Reading & Reading comprehension	
Additional barriers (<i>including issues to be addressed outside of school, such as low attendance rates</i>)		
D.	Attendance issues – pupils do not attend or are late for school	
E.	Lower self-esteem and self-confidence affecting learning behaviour	
F.	Low parental aspirations/engagement/involvement in learning and school life	
4. Intended outcomes (<i>specific outcomes and how they will be measured</i>)		
	<i>Measure</i>	<i>Success criteria</i>
A.	A recovery curriculum is designed to re-engage pupils, support their emotional health and wellbeing and transition back to school	Pupils receive a focused Recovering Curriculum and intervention programmes personalised to their needs Children rebuild their resilience and mental health, so that their aspirations for the future can be a reality once more The skills for learning are made explicit to pupils who reskill and rebuild their confidence as learners
B.	Attainment and progress in reading, writing and maths combined for pupil premium children to be in line with their peers due to acceleration in progress. To increase percentage of PP children working at greater depth	In school data and test outcomes demonstrates an increased percentage of children working at greater depth in Maths and English. Increasing whole staff awareness and responsibility for the attainment and progress of Pupil Premium children. There is a less than 9% gap between disadvantaged and other learners combined R/W/M

C.	Promote pedagogical approaches that support the learning needs for Pupil Premium pupils (who are also SEND) so that teachers and TAs feel confident in supporting the learning across the curriculum	A higher proportion of Pupil Premium pupils who are also SEND will make expected progress. Evidence of success will be seen in academic attainment and progress. Improvements in classroom pedagogy will be seen in learning walks, book scrutinies, and learning walks. Further assessment and identification of needs to be supported by outside agencies – target setting and training of staff to develop practice.
D.	PP children's reading improves in line with non-PP children	PP children make better progress in reading so that their writing is influenced by this PP children achieve in line with non-PP children. Children enjoy reading and can talk enthusiastically about a book they are enjoying
E.	Children's emotional well-being, resilience and regulation techniques are supported to ensure a positive and confident attitude to learning	In all years, across the curriculum, teacher assessments show that PP children are making progress at least in line with their peers
F.	Attendance to be in line with peers and National PP attendance expectations	Attendance of PP children to be at least 96+% Overall attendance among pupils eligible for Pupil Premium improves in line with whole school target figures and non-Pupil Premium pupils
G.	Children to be completing homework and reading at home or in school homework club	Homework and reading record are completed to at least the same percentage as their peers. More PP children attend homework club. Parental workshops support parents with homework
