

Dear Parents and Carers,

Re: Science Week -Monday 24th - Friday 28^h May 2021

We are looking forward to another exciting **Science Week** this year and have organised a range of fun and inspiring scientific opportunities for your children! The theme for **Science Week** this year is '**Innovating for the future**'. All students will participate in a variety of scientific investigations related to this theme and will be given the opportunity to plan, carry out, record and evaluate their very own scientific experiments throughout the week!

During Science Week, children will take part in science workshops led by **Fizz Pop Science**. These workshops will involve exciting practical activities which are based around the science curriculum. These practical experiments will truly capture the imagination of our budding scientists!

The cost of these exciting workshops led by the **Fizz Pop Science Team** is **£3.00**.

Please ensure your payment is made through '**School Gateway**.'

On the **Friday of Science week (Friday 28th May)**, we are inviting the children to come to school dressed as a Scientist for the day! This could be a famous scientist from the past or present or a mad scientist! There will be a prize for the best dressed scientist in each year group.

An easy way to 'pull off' the **MAD SCIENTIST** look is:

- Dress in a large, old formal shirt.
- Add pens in the pockets (to look extra Scientific!)
- Wear old 3D cinema glasses with the lens cut out or an old pair of goggles.
- Use hairspray to have mad hair!

Thank you for your continued support; we look forward to an exciting **Science Week**!

Yours faithfully,

Mrs Cronin
Science Co-ordinator
