Two-thirds of parents say parenting is harder today than 20 years ago, with technologies like social media and smartphones being cited as a reason

% of U.S. parents who say that for most parents, parenting is ...

66 — **Harder than it was 20 years ago**

*Among those who said **harder**, % who gave these as main reasons*

Technology, in general	26
Social media, in general	21
Changing morals, more violence/drugs	16
Tech gives access/exposure at younger age	14
More expensive, both parents need to work	12
Can't discipline kids like before	7
Kids less respectful, more entitled	6
Parents face more judgment/higher expectations	6
More device distractions, time with screens	6
Less family time	6
Smartphones, in general	5
Bullying, cyberbullying	4
Online predators	3
Other	9

26 — About the same

7 — **Easier than it was 20 years ago**

*Among those who said **easier**, % who gave these as main reasons*

Tech access, advancements	30
More information on parenting	30
Parents have more help today	9
Easier to track, reach kids	7
More things to keep kids occupied	6
Parents don't discipline kids	5
Society has progressed, more open	4
Other	11

Children and parents:
media use and attitudes report

2020/21

Online access and digital exclusion

- In 2020, **nearly all children aged 5-15 went online.** Laptops, tablets and mobiles were the most used devices for going online, used by seven in ten of these children.

- Ofcom's Technology Tracker 2021[1] research showed that **two per cent of school-age children relied on internet access via a smartphone only,** and **one in five children** who had been home schooling **did not have access to an appropriate device[2] for their online home-learning needs** all of the time.
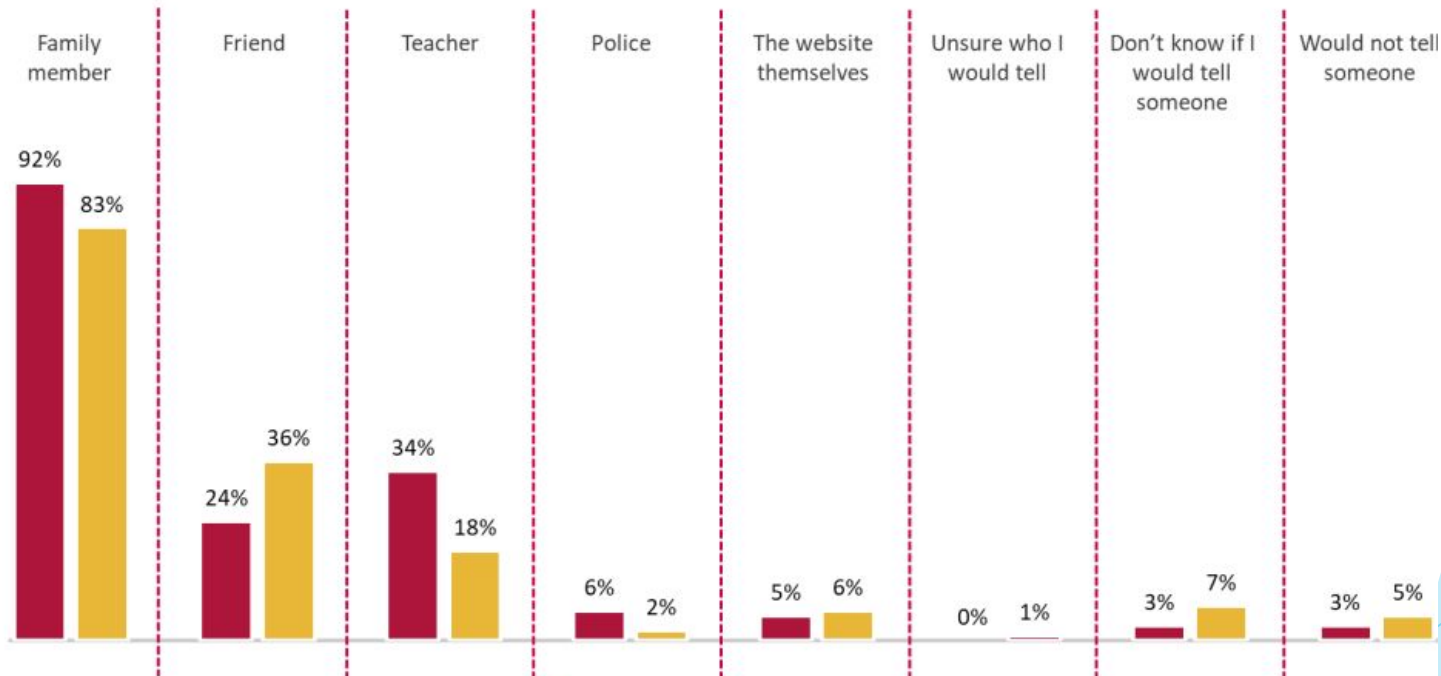

Content consumption and online activities

- **Children were twice as likely to watch TV programmes on video-on-demand (VoD) than live TV.** Almost all children (96%) watched any type of VoD compared to just over half (56%) watching live TV.

Who do children go to if they see something online that upsets them?

Nine in ten 8-11s and eight in ten 12-15s would tell someone if they saw something online they found worrying or nasty – with family members being the most popular choice of who to tell

Ofcom
making communications work for everyone

Reporting online content considered by the child to be worrying or nasty, by age: 2020

Family member	Friend	Teacher	Police	The website themselves	Unsure who I would tell	Don't know if I would tell someone	Would not tell someone
92%	24%	34%	6%	5%	0%	3%	3%
83%	36%	18%	2%	6%	1%	7%	5%

DO YOU KNOW **WHAT IT MEANS**

GENERAL

LOL: Laugh out loud
ID(e)K: I don't (even) know
ID(e)C: I don't (even) care
TBF: To be fair
TBH: To be honest
SNM: Say no more
SN: Say nothing
RLY: Really
OFC: Of course
HBD: Happy birthday
NW: No worries

WDYM: What do you mean
SMH: Shaking my head
LMK: Let me know
CYA: See ya
G2G: Got to go
IMO: In my opinion
JK: Just Kidding
DM: Direct Message
PLZ: Please
PLS: Please
BRB: Be right back

ONW: On my way
TH(N)X: Thanks
WYA: Where you at
WYS: What you saying
NM: Nothing much
NVM: Never mind
ACC: Actually
NP: No problem
BTW: By the way
ATM: At the moment
ILL LYK: I'll let you know

SWEARING

FML: F*** my life
WTF: What the f***
WTFO: What the f*** over
FFS: For f*** sake
STFU: Shut the f*** up

RELATIONSHIPS

ML: Much love
ILY: I love you
