Monday 27th February 2023

Dear Parents/Carers,

As part of our upcoming Science **Week**, which is focused on **Connections**, we have arranged an exciting local visit to **St Dunstan's Park**, which will take place on **Friday 17th March 2023**.

We will walk the short distance to the park and while we are at the park, the children will use their **investigation** skills to **observe** the living creatures in and around the trees and bushes. Additionally, the pupils will apply their **Geography Fieldwork Skills** to make connections between vehicle movement on our local roads and ecosystems within the surrounding area.

As mentioned above, we will walk to St Dunstan's Park, with classes 3O and 3P leaving school at 9:25am and returning by 10:35am and classes 3M and 3B leaving at 10:45am and returning by 11:50am.

As always, we will require help on the day. Please contact the school office if you are able to help on the day- this will be on a first come, first served basis; **we will let you know by Friday 10th March 2023**.

We look forward to a fun and engaging outdoor Science lesson!

Thank you all for your continued support.

The Year 3 Team

Executive Principal: Mrs E Á Linney, BEd. (Hons), PGCE, NPQH
Associate Principal: Miss L Taylor BSc (Hons), PGCE
