

Year 4 Autumn 2 Enrichment Homework

For Enrichment homework this term, you will be creating a project entitled '*Through the wardrobe...*' How you create your project is up to you, but your teacher and your parents will help you with ideas.

There will be three tasks to complete, these will feed into the creation of your No Limits final product: a circuit powered, light up Narnia scene! This homework will help you with Science, Art, DT and Speaking & Listening and you will be able to share your enrichment tasks with your class and No Limits assignment group!

There will be 3 awards given out for the following categories:

1) Self-Worth

2) Engagement

3) Purpose

Task 1: To be handed in on **Wednesday 16th November**

This task will require you to get creative (and probably a little bit messy)! As you know, your final product for our assignment is a circuit powered, light up scene from Narnia so...your task is to make the wardrobe that hides the doorway to Narnia! Using recycled bits from around the house you could make: a 3D wardrobe that opens to reveal a hidden land, a picture that opens using layers...the list is endless!

Task 2: To be handed in on **Wednesday 30th November**

As Science (specifically electricity) is a huge focus this term, your task is to research a famous scientist and create an engaging fact file about their life and work! You can present your information in any way that you choose (PowerPoint/poster/leaflet/poem). Can you find out about their scientific discoveries and the impact it has had on our world today?

Some famous scientists include: Mary Curie, Alexander Graham Bell, Archimedes, Leonardo da Vinci, Charles Darwin, Thomas Edison, Nikola Tesla, Jane Goodall, and Stephen Hawking.

Task 3: To be handed in on **Wednesday 14th December**

Your task is to use your art and design skills to create your own *flag for Narnia!* You can choose your favourite character from the story and think of ways to represent them, can you incorporate the endless winter, or will your flag represent Aslan's return? Will you have one main drawing in the middle? Will you have a motto? You can do your design on paper or on the computer.

We look forward to seeing your epic creations!

Team 4!
